GREETINGS

At Amco Industries, we bring over 30 years of collective industry experience through a seasoned management team dedicated to excellence. Since our incorporation in 2017, we have consistently delivered quality-driven solutions across multiple sectors. Our core offerings include the manufacturing of High-grade memory foam products, growing range of specialized services tailored to client needs.

Industrial stitching for automotive trims and aHome furnishing Industry offering tailored solutions for diverse needs. Our craftsmanship ensures personalized quality in every application.

Founder's words- "Precision, passion, and progress — our promise to you."

VISION & MISSION

Our Mission & Vision.

MISSION

- To provide high-quality, customized solutions that meet the unique needs of our clients.
- To uphold integrity, efficiency, and customer satisfaction as the foundation of our growth.

VISION

- To be a leading force in innovative and sustainable manufacturing across diverse industries.
- To continuously evolve through technology and craftsmanship, delivering excellence in every detail.

EXPERIENCE

The company operates in a well-managed, state-of-the-art facility equipped with modern machinery and a skilled workforce. From pattern cutting and fabric handling to intricate stitching and quality checks, every stage of production is handled with meticulous care. Amco's emphasis on efficiency, workplace ethics, and continuous improvement has resulted in long-standing partnerships with various brands and buyers.

Driven by innovation and customer satisfaction, Amco Industries is not just a stitching unit—it's a full-fledged manufacturing partner that understands the dynamics of fashion, bulk production timelines, and sustainable practices. Their experience is reflected in their consistent delivery, scalable operations, and the trust they've earned over the years.

OFFERINGS

At Amco Industries, we offer a diverse range of high-quality products and services across key categories including memory foam mattresses, recliners, automotive and industrial stitching, home furnishings, and sustainable packaging. Each category reflects our commitment to precision, comfort, and innovation tailored to meet evolving client needs.

MEMORY FOAM

We manufacture high-quality memory foam that adapts to body shape, offering superior comfort, support, and durability—ideal for mattresses, pillows, and comfort products.

HIGH FASHION

We specialize in precision stitching for high fashion garments, combining craftsmanship with attention to detail to deliver elegant, tailored finishes that meet premium industry standards.

HOME FURNISHING

We craft high-quality home furnishing products like cushions, pillows, and upholstery with a focus on comfort, style, and durability—designed to enhance modern living spaces.

SLEEP ACCESSORIES

We offer a range of premium sleep accessories including pillows, bolsters, mattress toppers, and more—designed to promote restful sleep through superior comfort and support.

OTTOMANS

We design and manufacture stylish, functional ottomans that offer both comfort and storage—perfect for enhancing living spaces with a touch of elegance and utility.

LATEX

Latex products are known for their flexibility, durability, and natural resistance to dust mites and allergens, making them ideal for bedding and medical applications.

AUTOMOTIVE TRIMS

We provide precision-stitched automotive trims that combine durability, aesthetics, and functionality—engineered to meet the high standards of the automotive industry.

BABY PRODUCTS

Baby products like carriers and pillows are designed for comfort, safety, and support, ensuring proper posture and gentle care for infants during rest or travel.

FIBER

Fiber pillows provide soft, breathable support with excellent shape retention, making them a hypoallergenic and affordable choice for restful sleep.

RECLINERS

Recliners offer adjustable comfort and ergonomic support, making them perfect for relaxation, pain relief, and enhancing home or office lounging experiences.

OUR CAPABILITIES

At Amco Industries, our strength lies in our integrated capabilities that support end-to-end manufacturing excellence. From product design and prototyping to large-scale production and quality assurance, we deliver seamless solutions backed by industry expertise and modern infrastructure.

Key Capabilities Include:

- Custom Product Development – Tailored designs to meet specific client requirements.
- Advanced Stitching & Upholstery – Precision stitching for automotive trims, furniture, and more.
- Foam & Recliner Manufacturing – In-house production of memory foam and ergonomic recliners.
- Quality Control Systems – Dedicated team and third-party inspections to ensure flawless output.
- Sustainable Solutions – Eco-conscious packaging and production practices.
- Efficient Logistics & Delivery – Reliable timelines with nationwide reach.

We combine craftsmanship, innovation, and operational efficiency to offer unmatched value in every project we undertake.

Thank You
